

Healthcare Lawyer on Call Program

Medical societies and physicians are in a state of turmoil as healthcare reform is implemented. The changes in healthcare systems, delivery and payment drive considerable fear and questions, and medical societies want to be the chief purveyors of helpful advice and direction for their members. Hence, the “Healthcare Lawyer On Call Program.”

The Program allows members of the Volusia County Medical Society the opportunity to speak with qualified healthcare legal counsel on issues such as: integration strategies, regulatory compliance, subpoenas, electronic medical records, HIPAA, medical malpractice situations, Board of Medicine matters, AHCA and Department of Health issues and other healthcare law matters, at NO CHARGE.

During normal office hours, members can call the VCMS office and receive a code, then call 561-306-5699 after 5 P.M. A voicemail will ask for the name and code. The lawyer on call will return your call by noon the next day and spend up to 15 minutes with each medical society member.

The Program is not available to physicians who are not members of the VCMS. Call now to receive the member code (386-255-3321 or 254-4105). For security purposes, the code will be changed periodically, so check with the VCMS each month for the new code to access this exciting new program.
